### BURNISHERS

### CHEMICAL FREE

### RIDER SCRUBBERS

### FLOOR MACHINES

**TOMCAT's** cordless **CLEAN CADDY** allows you to quickly convert your **MICROMAG** automatic scrubber into a universal remote cleaning station. The **CLEAN CADDY** is an option that easily installs in seconds, and without any tools. Just as quickly it can be removed and stored in a janitor's closet. Unlike other "No-Touch" machines, the **MICROMAG** is a battery powered Auto Scrubber first.

One of the primary complaints building maintenance professionals deal with is unsanitary and smelly restrooms. It is no surprise they can also be hazardous to human's health, as the bio-hazards are quickly transferred throughout the building. Many studies show that old fashioned cleaning with mops are ineffective at removing contaminants, and often are the source for spreading bacteria.

Increase operator productivity with **CLEAN CADDY's** onboard tools, while allowing them to enjoy less physical contact with the soiled surfaces. You can count on more regular cleaning with a device as simple as **CLEAN CADDY**, which eliminates those foul urine odors. It also brings more respect to the janitorial staff and safety.

The Medium-Pressure (100 psi) spray gun doesn't damage fixtures or grout, and reduces the risk of spraying back contaminated water into the operator's face. The 24 volt battery system provides long run time, greater safety and freedom from the restrictions of extension cords and limited wall outlets. No need to remove the **CLEAN CADDY** to use the **MICROMAG** as a traditional scrubber.

Schools can eliminate the need for extra equipment by simply ordering their **MICROMAG** (17" or 20") with the optional **CLEAN CADDY**. Kitchens and Cafeterias' difficult to reach areas are more thoroughly cleaned with the handy tools and the janitors enjoy a more respectful task.

The **CLEAN CADDY's** method has been documented to be 3x faster than conventional cleaning, which is helpful as janitorial staffs are asked to do more with less.

**STEP 1** – The operator starts off by dispensing the approved chemicals on all of the hard surfaces (urinals, floors, sinks, walls). This increases dwell time and the kill rates on bacteria, virus, mold, mildew and other contaminants.

**STEP 2** – The operator will use Combo Brush / Squeegee tool to remove soil from grout lines. This lightweight tool promptly removes stains and increases the chemicals effectiveness. Flips over to squeegee water to floor drains.

**STEP 3** – Pull water to floor drain with the Brush / Squeegee combination tool. Or for rooms without drains, the operator uses the Vacuum Tool, which has a 15' hose.

## SOLD THROUGH DISTRIBUTORS

We've built our reputation by providing the toughest, best-engineered, highest-value machines in our industry. We make sure that in every market in which our 350+ distributors in 40 countries do business, they maintain a "factory" trained service department with a vested interest in our customers' long-term satisfaction.

**TOMCAT** offers a wide range of cleaning equipment that includes sweepers, scrubbers, burnishers, and scrubber/sweeper combination machines, in both walk-behind and rider models. All of our machines are practical and rugged with a sensible price. Your local distributor will be happy to assist you with rentals, soap and floor finish information. They typically provide service on a wide range of cleaning equipment brands.

## REDUCE SLIP & FALL POTENTIAL

**Reduce Slip & Fall:** **CLEAN CADDY** leaves the floor dry, which reduces the potential for Slip and Fall accidents and improves employee/customer safety.

### Body Construction

Frame Material:	10 Gauge Steel (1/8") (3.2 mm)
Axle:	3/4" Solid Steel (2 cm)
Handlebar:	12 Gauge Steel, Adjustable
Finish:	Powder Paint
Wheels:	8" x 2" Non-Marking (20 x 5 cm)
Weight:	20" ST: 125 lbs. (57 kg)

### Brush / Pad System

Dimensions:	Micro 17D: 17" (43 cm) Micro 20D: 20" (21 cm) Micro 20E: 20" x 14" (51 x 36 cm)
Motor Power:	0.75 hp (559 watts)
Motor RPM:	Micro 17D / 20D: 200 rpm Micro 20E: 2900 rpm
Overload Guard:	Standard

### Solution System

Solution Tank Capacity:	10 gal. (38 liters)
Solution Flow:	2.0 gpm (7.6 lpm) 100 psi (6.9 bar)

### Recovery System

Recovery Tank Capacity:	10 gal. (38 liters)
Vacuum Power:	0.75 hp (559 watts)
Vacuum Specs (lift/airflows):	70" (70 cfm)

### Power System

Voltage:	24 volt DC
Charger:	24v / 12 amp DC (100v-220v / 50-60 hz AC)
Battery:	85 ah or 130 ah optional

### General

Productivity:	Micro 17D: 16,211 ft <sup>2</sup> (1,521 m <sup>2</sup> ) Micro 20D: 18,474" (1,718 m <sup>2</sup> ) Micro 20E: 18,474" (1,718 m <sup>2</sup> )
Sound Level:	< 69 dBA
Warranty:	3 Year Parts
