FLOOR MACHINES

BUILT FOR CLEANING

Tomcat's sweepers are built to sweep a variety of floors: Epoxy, Rubber, VCT, Wood, Concrete, Marble, whatever there is. ***Tomcats*** are compact, not light-duty.

These machines are all-steel, and use oversized components throughout. At your in-plant inspection, you'll see top quality components, hefty fabrications, oversized motors, and nearly 100% stainless steel fasteners.

Tomcat's side brooms pick up dirt in the corners. A huge tubular main broom under the machine sweeps up the dirt and debris from the floor and packs it into the steel hopper.

Meanwhile, the second stage vacuums up the dust and traps it in a polypropylene felt *"bag-house"* filter. ***Tomcats*** can pick up whole bags of cement at a time without leaving a trace of dust behind. The filter is cleaned by an on-board mechanism, and in most cases will last the life of the machine.

Tomcat's *"Central Command"* energy management system gives our silent, electric rider sweepers the power formerly available from only gasoline or propane-powered machines.

The ***VR*** is the most powerful compact battery-powered sweeper and can run a full shift on a charge.

MAKES YOU MONEY FROM DAY ONE

Few production machines can save you as much as a ***Tomcat*** sweeper. If you do not now use a power sweeper, Model ***VR*** will cut your labor costs for sweeping by a factor of ten or more.

These direct labor savings permit tremendous economy, even in small plants. The Model ***VR*** can sweep up to 350,000 sq. ft. in one shift, and on a single charge.

Tomcat VR rider is priced much lower than you think – less than many walk-behind machines, and a fraction of the cost of most other riders.

SPECIALISTS NOT NEEDED

Tomcats could not be much simpler to operate. Controls are smooth and simple, and maintenance is a snap; just put the machine on charge after every shift. No oil to change, brooms to reverse, fuel to spill, tanks to exchange, valves to grind.

TEST SWEEP – NO COST OR OBLIGATION

Why not have your people try cleaning your plant with a Model ***GT*** or ***VR***? It's free, and there's no obligation. Call us at 800-450-9824 to set up a demonstration that is convenient for you.

Made in USA . . . Sold & Supported Worldwide

Since 1986, our family owned company has been designing, building and supporting the best in floor maintenance equipment. Our ***Tomcat*** brand services the world with unsurpased commercial cleaning equipment, continually exceeding expectations and setting the industry bar that much higher. We favor the American Economy, and are committed to legitimate environmental best practices. Our investment in technology ensures a superior product and support for our customers. We want to ensure that we provide only the best in customer service, and that begins with our knowledgeable in-house customer support staff.

We've built our reputation by providing the highest value machines and providing local support via over 400 distributors in 42 different countries. Our Authorized Distributors maintain a *"factory trained"* technical department, with a vested interest in our customers' long term satisfaction. ***Tomcat*** offers a full line of equipment that includes sweepers, scrubbers and burnishers in both walk behind and rider models.
