**HOW TO PLACE ONTO MACHINE:**

![Diagram of how to place the white driver pad onto the machine.](image)
30 GRIT DIAMOND STRIPS:

The first step for your stone polishing, the orange 30 grit diamond strips are tough enough to handle the most stubborn scratches. The 30 grit diamond strips will shoulder the brunt of the work for removing high spots, so square footage will range from 100-3000 square feet. Four bars of each grit of diamonds are required for stone polishing.

Pack of 4 Strips - PART#: 300-30GRIT4

30 GRIT DIAMOND STRIPS
50 Grit Diamond Strips:
The second step for your stone polishing, the Green 50 grit diamond strips are tough enough to handle the most stubborn scratches. The 50 grit diamond strips will perform nearly the same amount of work the 30 grit does, so square footage will range from 100-3000 square feet. Four bars of each grit of diamonds are required for stone polishing.

Pack of 4 Strips - PART#: 300-50GRIT4

NOTE: REFER TO VIDEOS AND INSTRUCTIONS ONLINE BEFORE USING THESE PADS ON YOUR FLOOR.

100 GRIT DIAMOND STRIPS:

The 100 grit Aqua diamonds are used for the third step of the eight step process. These should last a little longer on surfaces prepped with the 30 and 50 grit diamonds. Square footage estimates are approximately 3000-6000 square feet. Four bars of each grit of diamonds are required for stone polishing.

Pack of 4 Strips - PART#: 300-100GRIT4

NOTE: REFER TO VIDEOS AND INSTRUCTIONS ONLINE BEFORE USING THESE PADS ON YOUR FLOOR.
