

Wesley,

I highly recommend the XR 40" Scrubber. I have had the opportunity to purchase many different brands of scrubbers through the years for different types of facilities and I can tell you that my company will be sticking with Tomcat for our scrubber needs. I have been very pleased with the service and instructions that Rick has provided my company as well. I recommend Tomcat and Rick to others as well.

Thank you,
Michael Clarke

Hello Michael,

Your name was given to me by Rick Haertel of Tomcat and I was hoping you could give me a testimonial of the XR 40" Concrete Scrubber. We are looking at purchasing one for our parking garage and surrounding sidewalk and wanted to know your thoughts.

Thank you so much,

Wesley
