Proudly Built in the USA

Edge Series
Floor Machines

• Ideal for Chemical Free stripping of most floor finishes.
• Square corners clean into corners missed by traditional “round” pads.
• Environmentally friendly “Dry Strip” approach is safer for the earth and operator by eliminating harsh chemicals and slippery conditions.

Before

20” or 28”

After

Compact Scrubbers
Burnishers
Chemical Free
Rider Scrubbers
Floor Machines
**Tomcat’s Edge** Series of surface preparation machines gives operators the ability to remove multiple layers of finish, without using chemicals. As we all push for new ways to increase our protection of the environment, this new approach can help achieve increased productivity and safety. Available in 20", 28" or 32".

The **Edge** Series can work with a variety of quality pads, eliminating up to 95% of the chemical stripping required. New operators can be trained in a matter of minutes, unlike the “expertise” that is often learned the hard way with traditional rotary machines and chemical strippers. Get better and more consistent results, and eliminate those large swirl marks.

The “ST” model’s lower rpm motor allows for dry use and therefore eliminates most water use. The “ST” model also is designed to be extremely quiet for use in sensitive applications like hospitals. At only 62 dBA, it is an industry leader in reducing noise pollution.

The “HD” model’s higher rpm allows for increased weight and productivity. Originally designed to make quick work of gym floor screening, it also works well on vct. The higher rpm consistently achieves a smooth preparation scratch, and extends sanding screen life over rotary machines.

For larger jobs we offer the 28” AC powered unit, in addition to our 28” and 32” Battery Powered Cordless units.

These units help customers save on the time and materials needed. Follow the finish manufacturer’s instructions and consult with your local dealer for further details. Please call 800-450-9824 to schedule your onsite demonstration and see why people are choosing Tomcat **Edge** Surface Prep Technology.
**EDGE**

Surface Preparation Technology

- Chemical Free Stripping
- Reduce Slip & Fall Potential
- Earn LEEDS Credits
- 70% Reduction in Water Usage
- Consistent Results – No Swirl Marks

- Oversized 6" Wheels
  - Durability & Smooth Ride

- Extra Weights
  - Increased Productivity

- Large Iso Motors
  - Durability

**STONE POLISHING**

- 50' Quoty Cord
  - Lighted Plug / UL Approved

- Optional Water Tank
  - Dust Control

- Optional 2-part Hand Bar
  - Fits in a Car’s Trunk

- HD 1.5 hp Motor
  - American Made

- Optional Skirt
  - Dust Control

**MASTIC / EPOXY REMOVAL**

- EDGE’S rectangular shape offers equal dwell time across pad width, unlike round pads. The square corner allows Edge to clean into corners and against baseboards better than round pads.

**SOLD THROUGH DISTRIBUTORS**

We’ve built our reputation by providing the toughest, best-engineered, highest-value machines in our industry. We make sure that in every market in which our 350+ distributors in 40 countries do business, they maintain a “factory” trained service department with a vested interest in our customers’ long-term satisfaction.

**TOMCAT** offers a wide range of cleaning equipment that includes sweepers, scrubbers, burnishers, and scrubber/sweeper combination machines, in both walk-behind and rider models. All of our machines are practical and rugged with a sensible priced. Your local distributor will be happy to assist you with rentals, soap and floor finish information. They typically provide service on a wide range of cleaning equipment brands.

**REDUCE SLIP & FALL POTENTIAL**

Reduce Slip & Fall: By eliminating chemical stripper one can easily reduce the potential for Slip and Fall accidents and improve employee/customer safety.

**AUTHORIZED DISTRIBUTOR**
